Glossary

Stoica Sergiu, Pop Tudor

User

A registered individual who can track books, write reviews, participate in discussions, and engage with other users.

Moderator

A user with special privileges to moderate content, delete inappropriate messages or posts, and block users who violate community guidelines.

JWT (JSON Web Token)

A secure token used for authentication and authorization within the application.

Discussion Thread

A section where users can create and participate in discussions about books and literary topics.

Friendship System

A feature that allows users to add friends, view their book activity, and engage in private messaging.

Leveling System

A gamification feature where users earn levels based on the number of books they have read, encouraging reading and engagement.
